

REGIONAL SCHOOL UNIT NO. 18

File: EBCF

AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs)

The Board recognizes that from time to time medical emergencies may arise that warrant the use of an automated external defibrillator (AED). Regional School Unit No. 18 may acquire one or more AEDs for use by qualified personnel in its schools and at school activities.

Unless otherwise provided by law, an AED may be used only by a person:

- A. who has successfully completed a course approved by the American Red Cross, the American Heart Association, or the Maine Department of Public Safety; and
- B. who has made a reasonable attempt to summon appropriate emergency services personnel when communication is possible.

The Superintendent shall be responsible for developing, in consultation with the school physician or other qualified expert, protocols for the use, storage, location, testing and maintenance of the School Unit's AEDs, and for identification of school personnel who should be trained in the use of an AED.

The authorization for acquisition, placement, and use of AEDs in the schools or at school activities is not to be construed as an assertion or guarantee that an AED or a person trained in its use will be available at any particular school site or school-sponsored event.
