File: ADF

COMMITMENT TO LEARNING RESULTS

The Messalonskee School District (MSAD No, 47) Board of Directors hereby adopts the system of learning results and the Maine Department of Education's applicable rules. The learning results system is intended to serve as a foundation for education reform and to promote and provide assessment of student learning, accountability, and equity. The Board of Directors recognizes that the legislative intent of the learning results system is to provide children with schools that reflect high expectations and create conditions where these expectations can be met.

The Board of Directors understands that implementation of the learning results system has broad implications for the school unit, including curriculum, budget, professional development, student assessment, professional evaluation, and graduation requirements. Therefore, the Board of Directors is committed to examining its policies to ensure that they are consistent with the intent and goals of the learning results system. This will require concerted and coordinated effort involving the Board of Directors, the Superintendent, administrators, teachers, parents, students, and the community.

The Board of Directors directs the Superintendent to develop a plan and time line for implementing the learning results system and any appropriate administrative procedures. The Board of Directors further directs the Superintendent to report to the Board of Directors on a periodic basis on progress toward implementing the learning results system.
