Round table

Belgrade reported that the snow fence was down and balls were rolling into the gulley.

The wood railroad ties were deteriorating at several elementary schools. All playgrounds could use mulch.

Atwood reported that there was some erosion under the back fence.

Sidney reported speeding and parking on the street issues. The sheriff’s office is working with the principal to solve these problems and there may be some outside funds to install speeding lights in the school zone.

The next meeting is scheduled for May 12 at 3pm
